

Flag Football Practice—Team

By Amy Johnson

I'm a flag football player, and I am on a team!

I have friends who are Team Mates. Other kids will be my team mates too. Grown ups are our coaches

It is ok if this is my first time playing flag football. My coach will teach me how to play.

It is important that I listen to my coach.

It is hard for my teammates to learn if I do not listen or if I am talking when it is not my turn.

I have to take turns talking to my coach. My coach is helping all of my team mates.

My coach teaches us and keeps me safe

It is important to try my best, but it is ok if I do not like flag football.

I can talk to my Mom or Dad about it.

I can have fun playing flag football with my teammates.
