

Baseball Practice—  
Throwing and catching  
By: Amy Johnson

I'm a baseball player and I go to Practice!

I'm a baseball player and I go to Practice!

I will learn how to how to throw and catch the baseball.

I need a baseball and team mate with a glove.

I hold the ball in my hand. I always make sure my team mate is ready.  
I'll know they are ready because they will be looking at me.

I throw the ball by bringing the ball back behind me and then letting it go when it is in front of me. I point my hand at my team mate after I let go of the ball.

After I throw, I need to be ready to catch the ball.  
I catch the ball when my team mate or coach throws the ball to me.  
I try to catch the ball with my glove.  
If I don't catch the ball, that is ok. I can pick it up and throw it back to my team mate or coach if they are ready.

When I go to practice I learn how to throw and catch a baseball.
